DETAILED ACTION

Allowable Subject Matter

Claims 1, 4, 7, 21, 29, 31-41, 44-46, 48, and 49 are allowed in view of the Applicant's arguments (Response filed 9/25/2006 and 6/1/2007) and the cited prior art of record. The independent claims recite a client, receiving from a server, position information and a network address from a device on the network, and the client requesting icon data from the device, which stores icon data for various events which possibly occur in the device, and the device provides the icon data to the client, and the client then displays the icon data on a map showing geographic location of the device, which, in addition to the rest of the claim limitations, are distinguished from the prior art. For support, see Instant Specification (p18-20).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
